JOURNAL OF TIME SERIES ANALYSIS
INDEX TO VOLUME 20 1999

Abadir, K. M. and Robert Taylor, A. M. On the definitions of (co-)integration 2:129
Abraham, B. and Balakrishna, N. Inverse Gaussian autoregressive models 6:605
Allen, M. and Datta, S. A note on bootstrapping M-estimators in ARMA models 4:365
Ben, M. G., Martinez, E. J. and Yohai, V. J. Robust estimation in vector autoregressive moving-average models 4:381
Brockwell, A. E. and Brockwell, P. J. A Class of non-embeddable ARMA processes 5:483
Chambers, M. J. A note on modelling seasonable processes in continuous time 2:139
Chen, H. and Romano, J. P. Bootstrap-assisted goodness-of-fit tests in the frequency domain 6:619
Chen, Z.-G. and Anderson, O. D. Polyvariograms and their asymptotes 5:487
Corradi, V. and White, H. Specification tests for the variance of a diffusion 3:253
Dargahi-Noubary, G. R. A linear discriminant for Gaussian time series 2:145
Ferreira, E. and Rodriguez-Poo, J. M. Variable bandwidth kernel estimators of the spectral density 3:271
Fokianos, K. and Kedem, B. A stochastic approximation algorithm for the adaptive control of time series following generalized linear models 3:289
van Garderen, K. J. Exact geometry of autoregressive models 1:001
Gerlach, R., Carter, C. and Kohn, R. Diagnostics for time series analysis 3:309
Gilbert, S. D. Testing for the onset of trend, using wavelets 5:513
Gomez, V. and Breitung, J. The Beveridge-Nelson decomposition: a different perspective with new results 5:527
He, C. and Teräsvirta, T. Properties of the autocorrelation function of squared observations for second-order Garch processes under two sets of parameter constaints 1:023
Hotta, L. K. and Vasconcellos, K. L. Aggregation and disaggregation of structural time series models 2:155
Huerta, G. and West, M. Bayesian inference on periodicities and component spectral structure in time series 4:401
Hurvich, C. M. and Deo, R. S. Plug-in selection of the number of frequencies in regression estimates of the memory parameter of a long-memory time series 3:331
Icaza, G. and Jones, R. H. A State-space EM algorithm for longitudinal data 5:537
